## BIG ATTENDANCE IS EXPECTED AT MASS MEETING

Holding Company Project Will Be

Discussed at R. J. Hall Tomorrow Evening

MUCH DEPENDS ON OUTCOME

An attendance which will tax the capacity of the Red Jacket town hall is predicted for the mass meeting to be held at 8 o'clock tomorrow evening for the consideration of the holding company project which is favored by the Copper Country Commercial club. While the meeting is held under the auspices of the commercial club, it is thoroughly public in nature, and an earnest invitation is extended to every citizen of Calumet and Torch Lake, who desires to see his community more populous and more prosperous.

Captain J. G. Brown of Galesburg, O., finance commissioner, who has never "fallen down" on a proposition of this nature, will be on hand to explain his plan for raising \$100,000 for the financing of new industries. The captain is a rough and ready talker who is well worth hearing, and he has a store of enthusiasm which is contagious. Citizens prominent in various activities of the upper country will be called upon for short talks, but the meeting will not be prolonged, and everyone will be given an opportunity to get home early.

The holding company is to be incorporated under the laws of Michigan for \$100,000, consisting of 10,000 shares of a par value of \$10. These shares will be offered for public subscription, and there will be no limit placed upon the number which any one individual or corporation may take. Captain Brown is of the opinion that the stock will be oversubscribed within one day after the opening of the books.

#### How Funds Will Be Used.

The fund thus accumulated will be placed in the custody of a board of directors to be elected by the stockholders. This board will invest in the shares of such enterprises as it deems worthy, after investigation and recommendation by the Commercial club. Dividends paid by these concerns will be turned into the treasury of the holding company and disbursed among stockholders, according to their holdings. No bonuses will be given, unless some enterprise of extraordinary merit should be made an exception. The holding company funds will be invested in the legitimate stock of manufacturing establishments which give promise of making good. Stockholders will profit not alone from dividends, but through the wages which will be distributed by these industries, and the increased population which will result.

Everyone is urged to attend the meeting tomorrow evening, whether they care to invest or not. No one will be importuned at this time to part with any money.

#### ARRIVALS OF THE STORK.

Births recently reported in Calumet township, are sons to Mr. and Mrs. Michael Leonard of Portland and Eleventh streets, and to Mr. and Mrs. James H. Gale of 4213 Eleventh street, and a daughter to Mr. and Mrs. John H. Hunt of East Cone street.

## HIGH SCORES BY ENGINEERS IN RIFLE CONTEST

Moore Cup Trophy Won by Victory Over the Houghton

Light Infantry

IS PERMANENT POSSESSION

By making the exceptional score of 1,060 out of a possible 1,200 on the Tamarack rifle range yesterday, taking the second match of a series of three with the Houghton Infantry, the rifle team representing the Calumet Engineers, won permanent possession of the beautiful cup trophy hung up by Dr. Moore of Atlantic. The Engineers had a much larger margin over the visitors than in the first match on the Houghton range three weeks ago, which also was won by the Engineers, this notwithstanding the fact the Houghton riflemen made a much higher score than won the first match for the Engineers. Yesterday's score stood, Calumet, 1,060; Houghton, 957, while in the match three weeks ago, the scores were—Calumet, 942; Houghton, 932.

Aside from the outcome of the both, both teams have reasons to feel proud of their work on the range yesterday, for the scores compare very favorably with the best that have been made in the big matches on the state ranges. Calumet has a slight advantage in having more veteran riflemen on the team, men who had participated in more state shoots and who had gained valuable experience thereby. The new men on both teams shot exceptionally well, however.

Lieut. McDuff of Calumet had the day's high score, 140 out of a possible 150 on the 300, 500 and 200 yard ranges. Sergeant McDuff was next with a score of 128 and Sergeant Cowley third with 127. Lieut. Smith headed the Houghton team with 126. The average score of the Engineers was 44.66 per man, considerably better than the qualifications for expert riflemen.

Following the match, both teams were banquetted at the Michigan Cafe. The scores made on the different ranges are as follows:

	300	500	200	Total
Runse	45	46	45	136
Smith	45	46	45	136
Heather	37	42	42	121
